Firewood Policy

In an effort to stop the spread of invasive pests and diseases that are harmful to Wisconsin's trees and the impact to Calumet County, only firewood from within Calumet County and is inside a 10 mile radius of Calumet County Park or from a certified firewood vendor is allowed.

Acceptable Firewood:

Firewood logs are allowed in Calumet County Parks only if the wood was harvested from inside a 10 mile radius of Calumet County Park in Calumet County.

People camping in Calumet County Park are allowed to bring scrap lumber for campsites as long as there are no nails or screws in them such as 2-by-4's and 2-by-6's used from a building project. Lumber is fully dried and debarked before it can be used in building, which means it cannot harbor pests and diseases of living trees like raw wood or logs can.

Be aware, if you transport firewood from Illinois, Indiana, Ohio, or Lower Michigan, you can be liable for federal fines up to \$1,000.00.

Minimally processed wood such as full or partial pallets, skids, or slabs will not be allowed in Calumet County Park.

Please know that toxins are released when wood that is painted, treated with preservatives, or made up of a composite of wood and glue such as chipboard and plywood is burned and this is a serious health hazard. This type of wood will not be allowed to be burned on county property.

Illegal firewood will be confiscated immediately and double bagged in heavy plastic until it can be treated in a manner that will kill any forest pest hiding under the bark.

Firewood can be purchased in Calumet County Park.
